## TOWN WARRANT

---

### THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of Raymond in the (L. S.) County of Rockingham in said State, qualified to vote in Town Affairs:*

You are hereby notified to meet at I. O. O. F. Hall in said Raymond on Tuesday, the eighth day of March, next at ten of the clock in the forenoon to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see what action the town will take relative to the playing of Beano in the town of Raymond.
4. To see what sum of money the town will vote to raise and appropriate for town maintenance including snow, cleaning Main Street and any general Highway expense.
5. To see what sum of money the town will vote to raise and appropriate for tarring.
6. To see if the town will vote to raise and appropriate such sums for State Highways as recommended by the New Hampshire Department of Public Works and Highways.
7. To see what sum of money the town will vote to raise and appropriate for street lighting.
8. To see what sum of money the town will vote to raise and appropriate for Memorial Day.

9. To see what sum of money the town will vote to raise and appropriate for the Fire Department.
10. To see what sum of money the town will vote to raise and appropriate for Dudley-Tucker Library.
11. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.
12. To see what sum of money the town will vote to raise and appropriate for maintaining the dump.
13. To see what sum of money the town will vote to raise and appropriate for the Park.
14. To see if the town will vote to authorize the Board of Selectmen to sell at public auction any property acquired by Tax Collector deeds.
15. To see what sum of money the town will raise and appropriate for Civil Defense.
16. To see what sum of money the town will raise and appropriate for Hydrant Rental.
17. To see what sum of money the town will vote to raise and appropriate for the continuance of the Raymond Recreational Program.
18. To see what sum of money the town will vote to raise and appropriate to install a central heating system in the Dudley-Tucker Library Building.
19. To see what action the town will take pertaining to the disposition of the Old Factory Building, and to raise and appropriate such sums of money as necessary to carry out such action.
20. To see if the town will vote to raise the sales price of cemetery lots.
21. To see what action the town wishes to take pertaining to the special water committee.

22. To see if the town will vote to authorize a fee of \$3.00 for furnace installation permits. Proceeds to be used as payment to the Chief of the Fire Department for expenses incurred.

23. To see if the town will vote to authorize the Selectmen to appoint an Inspector of Buildings, who shall hold office for a term of one year and who shall receive Five Dollars (\$5.00) for the issuance of each certificate authorizing the erection or substantial alteration of buildings and electrical wiring thereof, as provided by ordinance, the authorization for this appointment being R.S.A., Chapter 155:1.

24. To see if the Town will vote to adopt the following Building Regulations, as authorized under R.S.A., 156:2-5 inclusive:

1. The Inspector of Buildings shall be appointed by the Selectmen annually and shall be the administrative officer of this ordinance. He shall receive applications and fees for the erection or alteration of buildings and electric wiring thereof as provided in this ordinance; shall keep complete records of all applications and his action on the applications; promptly survey and inspect all buildings, alterations or uses proposed, accept and deposit with the Town Treasurer all fees collected by him under this ordinance, and may issue permits for erection, alteration or remodeling of all buildings, and the use of land, if in his opinion the proposal complies with the law of the State, this ordinance and other town ordinance and by-laws, provided that in any instance where license or permit fees for uses are required his permits shall constitute only an approval on which the proper authority may issue a license on payment of the required fees; any other duties

prescribed by law, shall act in cooperation with the fire warden in any matter in which their duties as prescribed by law may coincide or conflict; and shall take such action in the enforcement of this ordinance as may be directed by the Selectmen.

2. No building construction shall be started; no alterations of existing buildings of an estimated cost of more than Five Hundred Dollars (\$500.00) undertaken, and no building shall be put to any different use than on the day of enactment of this ordinance until a permit thereof has been issued under the terms of this Ordinance.

3. No application for a permit required by this ordinance shall receive action by the Building Inspector unless made in writing. All applications for a permit to build, construct, alter or remodel any building shall be accompanied by a sketch or plan of the proposed building or alterations, and a statement of its intended use when built, constructed, altered or remodeled. A fee of Five Dollars (\$5.00) shall be paid on all permits issued. A building permit shall become void unless operations are commenced within six (6) months from date of approval, unless such time is extended by the building official.

4. Upon receiving such application, the Building Inspector shall promptly take such action as may be indicated in the way of investigation or public hearings to acquaint himself with the merits of the application. He may, without judging the application on its merits, refer the application to the Board of Appeal. If, however, he finds the proposed building, alteration or use of the building to conform with the law and this ordinance he may at once issue

the permit in writing over his signature. If he finds the proposal in any way conflicts with the law of this ordinance he shall fix whatever restrictions or conditions on the proposed construction or use as may be in his best judgment right and proper, or for reasonable cause refuse the permit.

5. No building or structure shall be erected, altered, rebuilt, substantially repaired, remodeled or moved into town unless in compliance with the following:

a. *Commercial Building.* No building intended or designed to be used for industrial, commercial or other public use shall be erected, altered or used for any purposes which does not provide non-combustible walls and partitions between its component parts.

b. *Exits.* No building intended or designed for any public use or congregation of people shall be erected, altered or used for any purpose which does not provide adequate exits, as described in R.S.A., Chapter 155 and R.S.A., Chapter 156, and in regulations of the New Hampshire Fire Marshall's office.

c. *Garages.* No public garage for the storage of five (5) or more automobiles, or having any service or repair enterprises connected therewith, shall be erected, altered or enlarged unless the building is so constructed or the proposed alterations, enlargements or extensions shall be of slow-burning or non-combustible material, except that use of automatic sprinklers may obviate the use of such slow-burning or non-combustible materials.

d. *Roofs.* No roof of any building shall be covered or recovered in whole or in part save with non-bustible or fire resistant roofing materials.

e. *Chimney construction.* Chimneys shall extend at least three (3) feet above the highest point where they pass through the roof of a building and at least two (2) feet higher than any portion of the building within ten (10) feet. No chimney shall be built, erected or altered below the roof having wood or other combustible materials within one inch of the chimney and no chimney shall have its base resting upon any floor or beam of combustible material. Factory-built chimneys that are approved as a result of tests and listing by a nationally recognized testing laboratory shall be installed in accordance with the condition of the approval.

f. *Thimbles.* No wall paper or other combustible material shall be laid over any thimble or thimble hole in any chimney.

g. *Smoke pipes.* No smoke pipes shall be installed or erected so as to be within twelve (12) inches of any combustible floor or ceiling unless amply protected with non-combustible material. No smoke pipe shall be installed or erected which passes into or through partitions or walls of combustible material, except when guarded by a double collar of metal with air space of at least five (5) inches, or be at least five (5) inches of brick or other non-combustible material between the pipe and combustible material.

h. *Electric wiring.* All electrical wiring shall conform with approved methods and practices for safety to life and property. Compliance with the National Electrical Code, as published by the National Board of Underwriters, shall be *prima facie* evidence of such approved methods and practices.

i. *Foundations.* All structures shall be set on solid foundations of cement, brick, stone or other acceptable masonry except that in special cases where buildings are to be used for accessory or seasonal use the Building Inspector may waive the requirements of this section and permit the use of wood, metal or masonry piers.

j. *Minimum building area.* Every dwelling unit to be used by a single family shall have a minimum ground floor area of Five Hundred (500) square feet.

k. *Outside walls.* Outside walls shall be constructed of materials commonly used for outside construction and materials customarily painted shall be painted.

l. *Sewerage.* All dwellings and all commercial, public or industrial buildings shall be connected to a private sewerage disposal system, and the type, size and construction of all septic tanks and drainage fields shall be approved by the Inspector of Buildings.

m. *Exceptions.* The construction of small accessory buildings not used for living purposes, together with minor alterations, repairs and general upkeep of existing buildings, shall be exempt from the provisions of this Ordinance.

6. *Board of Appeal.* The Selectmen shall appoint a Board of Appeal in accordance with the provisions of R.S.A., Chapter 156, as amended by the Laws of 1959.

7. *Amendment.* This Ordinance may be amended by a majority vote of any legal town meeting when such amendment is published in the warrant calling for the meeting.

8. *Enforcement.* Upon any well - founded information that this Ordinance is being violated, the Selectmen shall, on their own initiative, take immediate steps to enforce the provisions of this Ordinance by seeking an injunction in the Superior Court or by any other appropriate legal action. Whoever violates any of the provisions of the above regulations shall be punished upon conviction as provided by R.S.A. 156:5.

9. *Takes effect.* This Ordinance shall take effect upon its passage.

10. *Conflicting provisions.* Whenever the regulations made under the authority hereof differ from those described by any statute, ordinance or regulations, that provision which imposes the greater restriction or the higher standard shall govern.

11. *Validity.* If any section, clause, provision, portion or phrase of this ordinance shall be held to be invalid or unconstitutional by any court of competent authority, such holding shall not affect, impair or invalidate any other section, clause, provision, portion or phrase of this Ordinance.

25. On petition of Ai S. Welch and ten others, to see if the town will vote to accept the section of West Shore Drive, Governor's Lake running from Lot #4K to Lot 15R. A distance of 500 yards.

26. On petition of Carl Dahlstrom and eleven others, to see what action the town will take to finish tarring Critchett Road, to raise and appropriate money for the same.

27. On petition of Leater Prince and ten others, to see if the town will vote to authorize the Selectmen to dispose of a certain tract of land off Gould Street.

28. On petition of Velma Downing and twenty others, to see if the town will vote to accept, tar and maintain the right of way on the Plains, exceeding not more than 16' in width, to raise and appropriate money for same.

29. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this twenty-second day of February, in the year of our Lord nineteen hundred and sixty.

IVAN C. REED, SR.,

EMILE G. BRISSE,

ALBERT J. KNIGHTS,

Selectmen of Raymond

Raymond Water Commissioners

## REPORT OF

### RAYMOND WATER IMPROVEMENT COMMITTEE

---

On March 13, 1959, I was elected secretary of your committee. I will report on what has taken place since then and will give a review of the accomplishments of this committee before I was elected secretary.

At a special Town Meeting, held on June 1, 1957, the voters authorized the borrowing of \$109,000.00 on a bond issue, which was to pay for certain improvements and additions to the Raymond Water Department system, and they designated a committee of nine men to have charge of this undertaking. These improvements were: the purchase and installation of a 600,000 gallon steel standpipe on the Nottingham road, with a 12 in. cast iron main from this standpipe to the end of the 10 in. main on Epping Street (Berk Shoe); a 10 in. main installed on Epping Street from the end of existing 10 in. main (Holt residence) to a connection at the end of the common; an 8 in. main installed on School Street, to supplement the existing 6 in. main, from the new 10 in. main on Epping Street to connect with a larger main opposite the school; the purchase and installation of water meters on all services; and such equipment and controls necessary for the proper functioning of these improvements. All of this was done leaving a cash balance on hand of \$13,440.94 plus \$2,500.00 due the fund from the Water Dept. (this amount had been loaned to the Water Dept.), or a fund balance of \$15,440.94 with only a few small unpaid bills outstanding. The lot of land where the standpipe was erected was donated to the town.

At the annual Town Meeting held on March 10, 1959 action on Article 20 was as follows: that, \$11,400.00 of

the unexpended balance be used for painting the old standpipe; making improvements at the pump house, which included the purchase of a new pump; cleaning up the new standpipe lot and erecting a new fence around this lot; and, extending the water main on Fremont Street as was first voted in the Town Meeting of March 10, 1953; that, the same committee be authorized to continue in force for another year; that, the remainder of the unexpended balance be used for further extension of water mains.

Your committee went to work at once, sought bids on each of the projects; when necessary employed the services of Mr. Sampson, of the firm of Western & Sampson, Consulting Engineers; evaluated the proposals, bids etc.; let the contracts and saw the work through to completion. All of the bills on the installation of the new pump are not in, but the pump and the other improvements are all paid for. The old standpipe has been repaired and painted; the new standpipe lot has been cleared and a new Chain Link fence installed; 1,200 ft. of 8 in. cast iron pipe installed on Fremont Street, which extends the main to within a few feet of Mr. Hibbard's house; a new 300 GPM Ingersoll Rand pump has been installed at the pumping station replacing the old pump; and other improvements are under way at the pumping station. I am pleased to report that all of the above mentioned projects have been completed, except for a little work still to be done at the pump house, and the total costs will be within the allotted amount of \$11,400.00.

A 300 ft. extension of 6 in. transite water main was installed on Sun Hill Road.

Recently, it has been brought to our attention that, through a slip in bookkeeping and accounting in 1958,

there is a \$200.00 balance due the Neptune Meter Co. on the original purchase of water meters. This will be paid.

The Water Dept. has repaid, to the fund, \$1,500.00 of the \$2,500.00 borrowed, now leaving a balance due of \$1,000.00. On December 31, 1959 there is a cash balance of \$3,694.22 plus \$1,000.00 due from the Water Dept., or a Fund balance of \$4,694.22. There are, or will be, outstanding bills which will total to only a few hundred dollars.

Respectfully submitted,

GEORGE C. GOVE,

Secretary for the committee

## TOWN CLERK'S REPORT

## HIGHWAY AGENT'S REPORT

---

January 1, 1960

The past year we came out very good on our appropriations. Our winter maintenance the last couple of years, is running higher, due to added roads, salt and more plowing.

The grader is still in very good condition. No tires were bought last year, and it required very little repairs. We may have to buy two tires this coming year.

The bulldozer tracks are in very poor condition. I don't intend to repair them as it would cost considerable. If kept for town use for the dump it should last some time.

Our snow plows are in good shape.

The Mountain Road and Critchett Road couldn't be finished as we ran short of funds to cut banks and gravel. The Mountain Road, the state required us to take out stone walls if possible, which would have run into considerable and was not figured on last spring.

Respectfully submitted,

LYMAN HAMMOND,

Highway Agent

## RAYMOND FIRE DEPARTMENT

---

To the Selectmen and Citizens of Raymond:

The following is a brief resume of the activities of your fire department during 1959.

We had a very good year as far as serious fires were concerned. We had thirty (30) bell alarms and eighteen (18) still alarms. We answered three (3) mutual aid alarms and called on mutual aid once. Our losses amounted to \$9,845.00.

We received a 20% reduction in insurance rates within the hydrant district which means a large saving for policy holders.

We had eighty-six (86) inspections for buildings and furnaces. We added a thousand (1,000) feet of 1 1/2" hose and some salvage covers to our equipment, and hose covers to three (3) of the trucks.

The Civil Defense Department co-operated with us and saved the town a considerable amount of money on various supplies and equipment.

I want to thank our citizens for their co-operation in helping to keep our fire losses at a minimum, also the men in the department for their co-operation, and the girls on the Red Network phones for a job well done.

Respectfully submitted,

P. A. FOX, Chief

February 6, 1960

Board of Selectmen  
Raymond, New Hampshire

Gentlemen:

Submitted herewith is the Audit Report for the fiscal year ended December 31, 1959, as made by Hunt's Accounting Service, as requested by the vote of your Town.

**SCOPE OF AUDIT**

All Departments of the Town Government were audited: The Board of Selectmen, Treasurer, Tax Collector, Clerk, Trustees of Trust Funds, Library and Water Department.

**FINANCIAL STATEMENTS**

Exhibit A-1 contains the Balance Sheet for a two year period. This Exhibit reflects the Assets and the Liabilities at the close of the fiscal years December 31, 1958 and December 31, 1959. The financial condition of the Town of Raymond shows a Net Debt of \$90,249.25 at the close of 1959, a decrease of \$18,153.23. Exhibit A-2 gives the details of the decrease.

Exhibit A-3 shows appropriations as raised by the Town vote, receipts and reimbursements of appropriations, expenditures and balances as under-expended or over-expended. The final over-expended balances of appropriations was \$3,756.27.

Exhibit A-4 shows anticipated revenues and amounts actually received by the Town. The final excess of revenues was \$5,416.54 and by subtracting overdrafts of appropriations, this will give a net budget surplus of \$1,661.27.

**DEPARTMENTS**

Exhibits B-1 through I show various Town Officers' accounts. All monies were accounted for by reconciling with depository banks.

Verification notices were sent on all delinquent taxes for the 1959 levy.

## GENERAL COMMENTS

The general financial condition improved during the year, however a Net Debt of \$90,249.25 remained.

The accounts and records of all Town Officials which we examined were found in good condition. To these Officials, my thanks for the cooperation and assistance given our force during the course of the audit.

Very truly yours,

Herbert E. Hunt

Auditor

School District

of the

TOWN OF RAYMOND, N. H.

For the Year 1959-1960

---

---

## SCHOOL WARRANT

---

### THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the School district in the town of Raymond, New Hampshire qualified to vote in district affairs:*

You are hereby notified to meet at the Consolidated School in said district on the Twelfth day of March 1960, at seven o'clock in the evening to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with

other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the District will vote to raise and appropriate the sum of \$600.00 for an extension of the School District Bus Service now in effect, said amount to be made available before June 30, 1960.

10. To see if the District will vote to authorize the School Board to use interest money now in the Bond Issue Account in the sum of \$921.92 for the purpose of tarring and constructing roadway adjacent to the new school.

11. To see if the school district will vote to adopt a plan for extending to employees of the school district the benefits of Title II of the Federal Social Security Act (Old Age Survivors Insurance) as authorized by Chapter 101 of the Revised Statutes Annotated Amended by Chapter 301 and 332 of the laws of 1955 and to raise and appropriate the sum of \$250.00 to defray the district's share of the cost thereof.

12. To see if the school district wishes to exclude from the plan services in any class or classes of positions filled by popular election.

13. To see if the school district wishes to exclude from the plan services in any class or classes of positions the compensation for which is on a fee basis.

14. If a plan for Social Security coverage is adopted, to see if the school district will authorize the school board to execute on behalf of the school district the necessary agreement with the State of New Hampshire to carry into effect the plan and to see if the

school district will designate the superintendent of schools as the officer responsible for the administration of the plan.

Given under our hands at said Raymond this 12th day of February 1960.

## REPORT OF THE SCHOOL BOARD

---

With the opening of the new High School last September, a new era of educational opportunity was inaugurated, not only to our pupils but also to those of our neighboring communities. Greatly expanded facilities and new courses of study have been made available through the wise and timely action of the community. We should like to point out however, that the community, by discharging its long accepted responsibilities should encourage its students to a greater sense of interest and responsibility toward furthering their education.

All the problems connected with education certainly have not been overcome. It is our hope that as a community, we will always admit that the necessity of offering a well rounded education to the youth of our community is in itself a never ending problem. If we accept this challenge to our resourcefulness and solve our problems, the community as a whole will be stronger and our youth will be much better prepared to face the future.

There is a need of expanding our transportation. To help resolve this problem, we have a special article in the warrant. The elementary school will need an additional teacher next September. There is some indication that we may soon reach a peak in first grade enrollment. Should this prove to be so, we must not lose sight of the fact that the present influx at the grade school level will soon manifest itself in the High School.

The library has not had our full attention due to other more pressing problems. However, the Board

hopes to have a library in operation before the end of the present school year.

We take this opportunity to thank the Parent-Teacher Association for their contribution to the new building. They are responsible for attractively furnishing the Teacher's room and it is our understanding that they are also planning to furnish the Home-Making room. Their effort throughout the school program is of great satisfaction to the School Board.

May we also take this opportunity to express our gratitude to our Superintendent, Principal, Teaching Staff and fellow townspeople for their continued interest and cooperation.

Chairman of School Board

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

February 1, 1960

To the School Board of Raymond:

In order that you may have a list of some of the accomplishments for the past year as well as the recommendations for future development, may I present my thirteenth report.

In the instructional staff of the school, there are 17 regular teachers, a supervising principal, and two part-time music teachers. Of these teachers, two are additions and six are replacements. This is nearly a 40% turnover in teacher personnel in the last 4 or 5 years. Although we have not as yet discussed next year's staff, the number of changes are very likely to be just as large. Such a situation emphasizes the need for a salary schedule especially with other districts in the Union and surrounding areas advancing and using this means of attracting experienced as well as new teachers.

Our music program has been one of the highlights of the year thus far. As you are well aware this program now includes music appreciation, chorus, instrumental music and band. Since September this program has surely given a good account of itself and promises to be an integral part of the curriculum.

What of the future? We have now become two schools although under the same administration. We have been approved as a comprehensive high school by the State Department of Education, at least for 1959-60. But we cannot rest on our laurels because we have quite a distance yet to go to meet impending requirements.

Therefore, it is strongly recommended that the school library be augmented with file cabinets, drawer

tables, shelves on at least two sides, card catalogues, and a fund for books and other materials. A teacher of foreign languages should be elected along with a teacher in the intermediate grades. Both are necessary if we are to meet the recommendations of the state department and give any consideration to some of the rooms with forty children and over. And just as soon as possible an art teacher should be placed on the staff since this phase of the fine arts is just as essential as the music.

It is recommended that you consider very carefully the need for more time to be spent in maintaining both buildings in good condition. Since the new addition has been completed, we have added over 15,000 square feet of floor space together with from 40 to 50% in enrollment, but the additional services of a custodian cannot keep pace unless you hire him for a longer period of time and give him an adequate piece of equipment to accomplish it.

Through the State Department of Education, Raymond has been allotted \$1,470.00 under Title III of the National Defense Education Act for expansion, extension, and improvement in science, mathematics, and foreign language. If this amount is placed in the budget and spent for that purpose, the United States government will reimburse one-half. Here is an opportunity to do something in these courses, which must eventually be put into the school, that we could not ordinarily do under present circumstances. And this reimbursement is carried as an income to the district in reducing the entire budget.

Your lunch program is one of the best in the area if not in the state for the size of the school and the handicap under which the women who administer to its production must work. We surely need more room

because it is an important phase of the school and should be considered carefully in your efforts to continue to be rated as a comprehensive high school.

During the past few years much time and study has been made to introduce a workable and useful testing program for the children of the school. We now have one of the best programs in the state especially from the standpoint of understanding and guidance of our children. Our teachers are now better informed as to what can be done for their pupils than ever before and can so inform the parents.

Probably the crowning achievement of the entire school year and one of the greatest improvements ever undertaken in the town since the first schoolhouse was built, was the construction of a new high school. This building opens an entirely new field of development especially for our high school boys and girls. It has taken many long and tireless hours on the part of the school board members and the citizens of the town. It has brought much attention to the school and the district not only through this particular area, but also from all over the state. It is a job well done proving that the future of the town of Raymond can surely feel proud of its desire to see its boys and girls receive the best education it can purchase. We must now be sure that it houses the courses and instructors along with sufficient equipment to continue the educational process.

It has been a privilege to have been associated with the Board during the past year and in its desire to develop a better educational program for the town. May the good work still continue.

Respectfully submitted,

MURRAY H. WATSON,

Superintendent of Schools

## PRINCIPAL'S REPORT

---

To the Superintendent and the School Board:

We are pleased to report, at the outset, that in a recent communication from the office of the Commissioner of Education, Raymond High has achieved the status of an Approved Comprehensive High School.

### INSTRUCTION

It would seem to us that the teacher should be given top priority in your budget deliberations. Quality in the finished product is highly dependent on continuously efficient teaching. Having had a thirty-seven per cent turnover in personnel in the past four years I urge you to consider the feasibility of setting up a salary schedule. Many school districts in Supervisory Union No. 53, of which Raymond is a part, have already set the wheels in motion. They, therefore, are going to be in a better position to attract qualified teachers and, what is more important, hold them for a few years. Financial gain has been the prime reason for staff members moving on to greener pastures.

The new addition has made it possible to separate the High School from the Junior High and the Elementary School which administratively speaking is a step in the right direction.

The new music program which includes: chorus, music appreciation and band has proved the sagacity of sharing qualified teachers with other districts as suggested a year ago. We would go one step further and suggest hiring an art teacher on the same basis. We have many children with artistic ability going wanting for lack of a qualified teacher.

In view of increased numbers at the intermediate level, we feel that an additional teacher may be necessary next year.

We also feel that our foreign language offerings need to be broadened as suggested by the visiting committee from the State Department of Education. This would mean the addition of a teacher to the high school staff.

We are very proud of the fact that one of last years graduates, Albert Syria, won a United States Navy Yard Scholarship in Engineering and is presently enrolled at the University of New Hampshire. Two members of the present Senior Class, Pamela Quimby and Charles Frizzle scored at the ninety-eighth percentile on the National Merit Scholarship Test, which places them in the top 10,000 nationally, of the better than 500,000 who took the test. They have been commended by the National Merit Scholarship Corporation and will no doubt receive aid at the College of their choice. Charles Frizzle has received notice that he is being considered for an N.R.O.T.C. Scholarship, which would give him his choice of the top fifty-two colleges in the country.

### INSTRUCTIONAL EQUIPMENT

The National Defense Education Act of 1958, Title III has authorized the school District of Raymond to budget \$1,470.00 for procurement of equipment to strengthen instruction in science, math and foreign language. If the district sees fit to budget this amount and spends it on one or all of these three areas, the district will be reimbursed by the federal government in the amount of \$735.00. In other words we can buy the equipment we need at a fifty percent discount which seems to us like good business. If we do not use the money allocated to us it will be turned over to another district for use.

### MAINTENANCE

This is a tremendously important item when you consider the amount of money you have invested in the

school plant. The square footage of floor space plus the increase in the number of teacher stations calls for much more janitorial help than is currently being provided. With the addition of better than 17,000 sq. ft. of floor space and a fifty-one per cent increase in enrollment (169 pupils) in the past twelve years, we have added two hours janitorial help a day. Our new school addition alone requires more service than this. We recommend the purchase of a floor maintenance machine for the new wing in order that the floors may be properly maintained with a minimum expenditure of time.

### FIRE SAFETY

The following recommendations are repeated:

1. Crash bars on both doors of each exit.
2. More fire extinguishers.
3. Improvements on alarm system to include switches on each floor.
4. Enclose stair wells with fire doors.
5. Install fire escapes on old building.
6. Monthly inspections of premises by Fire Chief or designated substitute.

### LUNCH PROGRAM

Once again I call your attention to the fact that we are running a lunch program in an area that we have long since outgrown. Mrs. Irene Smith is running probably the best program in the state under the most trying conditions. Mothers would be quick to realize this. If you were asked to serve the same meal at five different sittings, I am sure you would appreciate the complications in making the meal just as palatable to the last to be served as it was to the first. If the kitchen could be moved to the room just off the Gym and we could use the Gym as a dining hall we could

reduce the number of sittings from five to two. And we would have room for additional equipment.

### LIBRARY

According to present policy at the state level, we are deficient in one very important area of the instructional process in that we do not have an adequate library facility. We have designated a room to be developed for this purpose. However, we have done nothing to bring about its fruition. We need shelf space, drawer-table, file cabinets, card catalog and a supplementary book fund for the purchase of materials.

### TESTING PROGRAM

We have set up a testing program in cooperation with Science Research Associates which we feel is second to none. Each youngster is given intelligence tests in the odd-numbered years and achievement tests in the even-numbered years in the Elementary School. And on the basis of last years results we are happy to report our youngsters are well above the National Average. We are currently giving the Iowa Test of Educational Development to all High School Students. We give the N. H. Battery of tests for guidance purposes to youngsters in the eighth, tenth, and twelfth grades. We also have the Portsmouth office of the N. H. State Division of Employment Security come in and test all members of the Senior Class not planning to go on to school. This test makes it possible for students going directly into the job market to gain employment in an area calling for his particular abilities.

### HEALTH PROGRAM

Our health program has been broadened with Dr. Dionne conducting a Dental Clinic weekly, the school nurse, Mrs. Edith Lyons, working three days a week

and the school doctor, Dr. Abell visiting once a week for examination purposes. We are deeply appreciative of their devotion to the well being of our children.

In closing we wish to express our thanks to the P.T.A. for furnishing our teacher's room. We also wish to thank the various civic organizations for their continued interest in the welfare of our children.

May we also take this opportunity to express our gratitude to our hard working staff. Thank you one and all, most sincerely.

And may we thank you, our fellow townspeople for your continued cooperation and support.

Respectfully submitted,  
JOHN J. CALLAGHAN,  
Principal
